

Your questions answered

Is woodland burial affordable? Yes
Woodland burial will usually save money. It will also help protect the environment and make a lasting contribution towards a woodland nature reserve, which will last for generations to come.

Can I have a memorial on the grave? Yes
The Trust has authorised the use of an inscribed oak cross. Other memorials may in future be supplied by the trust.

Can anybody be buried? Yes
We welcome people of all faiths and no faith at all. We just ask that the Trust agrees any form of ceremony beforehand.

Can I have a proper coffin ? Yes
Since we are seeking to develop a beautiful natural woodland, we ask that certain practices are observed which will help the environment. These include such things as trying to make sure that coffins and caskets are made from real wood or other natural products which are bio-degradable.

We can also offer information about our pre-paid funeral plans to cover the entire cost of a funeral.

Why choose woodland burial ?

People who choose woodland burial care about nature and the environment. The creation of natural woodland, where birds, animals and all nature can thrive, is a caring alternative to traditional cemeteries which leave large areas of tombstones. Cremation contributes to global warming by producing greenhouse gases, it is also harmful to the environment with the release of dioxins which create long term pollution. By choosing woodland burial we give something back to our communities and contribute towards the conservation of our environment.

Our woodland is run by a non-profit making charity and is consecrated to come within the jurisdiction of the St Albans Diocese of the Church of England. People choose consecrated woodland burial because it provides the greatest protection in English law. It also provides assurance because everything is protected by the oversight of the church. We can guarantee that you will rest in peace.
